

**Isadora Quay**

Isadora Quay is from Scotland and Australia. She is the Global Lead on Gender in Emergencies at CARE International. She is a serial gender equality tool creator. She created Rapid Gender Analysis, founded Women Lead in Emergencies and led the development of the first organisational Gender Marker. Right now, she is starting-up a gender in emergencies social enterprise and supporting the launch of the RGA App for qualitative data collection. She also loves dancing and having a nap.
